26. Soccer (Football)

- (1) All soccer bets shall be settled on the score at full time (regulation time played plus referee’s optional time). Extra-time, golden-goal and penalties do not count.
- (2) In the event of extra time, a new market will be created.
- (3) Where a bet is struck to “win outright”, “lift the cup” or “to progress” there shall be no betting on the draw, as extra time, golden-goal or penalties may be required to decide the outcome.
- (4) Prices shall be displayed on both teams as well as the draw. Teams playing on a neutral ground may be shown as either home or away. The price on the home team should be displayed first and then the price on the away team or it must be clearly indicated which is the home team.
- (5) If a team plays a different opponent to that which is advertised, or if the venue of a match is the reverse of that displayed, or if the venue is changed to a neutral ground, all bets on that match shall become void. Multiple bets which include that match shall stand with that match being treated as void.
- (6) (a) Where various betting opportunities are offered for the same match (e.g. correct score, first player to score, half-time or full-time result forecast) these cannot be combined in multiple bets where the outcome is related or where the result of one part of the bet contributes or assists in determining the outcome of another part of the bet. Where a multiple bet of this type has been accepted in error, it shall be settled by equally dividing the stake unit where the related outcomes clash; for example: Chelsea to win with the exact score 3-0 (10/1) and Chelsea to win in 90 minutes (1-1) is a related bet and therefore any bets placed on this double would be amended and the stake on the double split between the two individual bets; i.e. if R200 was placed on the double, the bet would be amended to read R100 on Chelsea to win 3-0 (1000/100) and R100 on Chelsea to win in 90 minutes (100/100).

(b) Where various betting opportunities are offered for the same tournament (e.g. pick the finalists, teams to or not to proceed to further stages of the tournament, a team to win a group) these cannot be combined in multiple bets where the outcome is related. When an multiple bet of this type has been accepted in error, it will be settled by equally dividing the stake unit where the related outcomes clash.
- (7) (a) Should a match start and be abandoned prior to the completion of full time and an official result is declared by the governing association of the match or event within 24 hours, relevant bets will be determined on that result, notwithstanding any later changes to the result and/or error.

However, in these circumstances, selections which are dependent upon the number of goals scored (including handicap bets) are void.

(b) If a soccer match is officially called off prior to its scheduled completion and an official match result is not declared by the relevant recognised governing body within 24 hours, selections not determined at the time the match is concluded are deemed void. This does not apply to bets already determined at the conclusion of the match (e.g. first goal scorer).

- (8) (a) Settlement of “first or last player to score” bets shall be based on the goal scorer credited with the goal. Own goals do not count.
- (b) “First player to score” selections shall become void if the selected player does not take part or takes the field as a substitute after the first goal has been scored.
- (c) If a match is abandoned “first player to score” bets will stand provided a goal has been scored.
- (d) In “first goal scorer” bets and “any other goal scorer” bets, it means any player besides those quoted (having betting next to their name) in the event. Only players NOT quoted in this event will be taken into account for the “any other player” bets.
- (9) Selections on any matches that are postponed by more than 36 hours after the advertised date, or where there is a change of venue, shall become void.
- (10) Selections are accepted up to kick-off time. Any bet inadvertently taken where the kick-off time was earlier than when the bet was accepted will be void.
- (11) Bets struck “in running” must clearly state “in-running” on the ticket.
- (12) (a) Bets relating to time will be settled according to the timing of the broadcaster’s clock or
- (b) according to the information published on the internet (official websites e.g. the official site of the league, or the live data providers) or by the Press Association, whichever is deemed more accurate.
- (13) All “soccer specials” are offered as one bet and should any part of the special not be determined for whatever reason, then the whole bet is void as the option was offered as one bet (e.g. Ryan Giggs to score the first goal and Manchester United to win – if Giggs does not play then the bet is void).

27. Athletics and Swimming

For settlement purposes the podium position or medal ceremony will count as the official result.

28. Boxing

The following shall apply to boxing –

- (1) In the event of a contest being postponed for more than 24 hours or should there be a substitution for one of the boxers, all selections will be void.
- (2) A price may be offered for a draw and in the event of that occurring; bets on either boxer to win will be losing bets.

- (3) If either boxer fails to answer the bell, his opponent will be deemed to have won the contest in the previous round for betting purposes.
- (4) A points decision is effective on completion of the scheduled number of rounds. Where for any reason a points decision is awarded before the full number of rounds is completed, bets will be settled on the round in which the fight was stopped.
- (5) If for any reason the number of rounds scheduled is changed, all “round by round” selections will be void.
- (6) Notwithstanding rule 28(3), where a boxer is disqualified by reason of technical infringement such a low-blows, eye-gouging and head butting, such boxer will be deemed to have lost and all bets shall stand.

29. Cricket

The following shall apply to cricket –

- (1) Limited Overs (one day matches)
 - (a) In any limited-overs match, all bets will be settled in accordance with official competition rules including matches where a reduction of overs takes place.
 - (b) If a match is abandoned due to outside interference and no official result is declared, all selections will be void.
 - (c) In a weather affected match, where the minimum number of overs necessary to declare a match or result, has not been bowled, all selections on the game will be void, except those bets where the contingency bet on has already been concluded.
 - (d) Bets on matches that are reduced in length but not abandoned, including “in-running” bets, will stand provided that the match has been completed and an official result declared. This applies whether the result is determined by the Duckworth/Lewis method or any other form of calculation used to determine the official result.
 - (e) All total runs bets on a single innings will stand regardless of how many overs have been bowled so long as an official result is declared.
 - (f) Bets will stand for all postponed matches so long as they are played within 24 hours. If there is a change of venue or team selection, selections will be declared void.
 - (g) When a match is tied –
 - (i) top batsman, bowler and total bets shall stand;
 - (ii) match selections are void unless tie betting is quoted.
 - (h) In “top batsman” and “top bowler” betting, and “runs scored by an individual batsman” or “wickets taken by individual bowlers” –
 - (i) selections on any player not in the starting eleven shall be void;
 - (ii) selections shall become void in a match where at least one ball has not been bowled to both sides

- (iii) top batsman and bowler bets will stand so long as the player is picked to play in the match irrespective of whether he bats/bowls or not and such players will be deemed to have scored zero runs and taken zero wickets respectively;
 - a. head to head bets in this sub rule require at least one ball to have been bowled and a minimum of 25 overs to have been bowled or the relevant innings to have been completed to stand. In the event of a tie, head-to-head selections will be void.
- (iv) selections on an individual batsman's runs will be void if he does not face at least one ball;
- (v) dead-heat rules apply for "top batsman/bowler" and "catches" betting;
- (vi) if a match is abandoned before a bowler can complete his allotted overs or take more wickets than the other bowler then selections are void

(2) Innings Runs/Innings Sixes

ODIs - Bets on the total runs (overs/unders) and total sixes (overs/unders) in an innings will be void if the intervention of rain or any other delay results in the number of overs being reduced by 5 overs or more than that scheduled when the bets were struck; unless settlement of bets is already determined. This applies to both ante-post and In-Running betting.

T20s - Bets on the total runs (overs/unders) and total sixes (overs/unders) in an innings will be void if the intervention of rain or any other delay results in the number of overs being reduced by 2 overs or more than that scheduled when the bets were struck; unless settlement of bets is already determined. This applies to both ante-post and In-Running betting. In matches of 10 overs or less, bets will be void if the entire innings is not completed, unless settlement of bets is already determined.

(3) Five day matches –

- (a) Top batsman/bowler rules apply as for limited overs matches;
- (b) At least one ball must be bowled for bets to stand, otherwise affected selections are void;
- (c) If a match is officially abandoned due to outside interference and no official result is declared, then undecided selections on the match are void, and
- (d) In the event of a tie, i.e.: both teams have completed two innings each and have the same score, dead-heat rules will apply, and bets on the draw will be losing bets.

(4) Series betting: test or one day–

- (a) Selections are void if the designated number of matches in the series is not completed, unless a sufficient number of matches have been played to determine the series.
- (b) correct score selections shall become void if the stipulated number of matches is not played.

(5) Tournament or Series

In a tournament or series, where a bet on an outright winner has been taken and the trophy is shared due to a tie or a no result, dead-heat rules apply. However, selections on a team to win a final are void if the match ends in a tie.

30. Golf

The following shall apply to golf –

- (1) (a) Where a tournament which is scheduled for 72 holes and play is abandoned for any reason, all selections on the outcome of the tournament are void, unless an official result is declared by the relevant recognised governing body within 48 hours.
 - (b) In the event that a tournament is abandoned prior to completion of the scheduled number of holes any selections placed after the point in the tournament where no further play occurred are deemed void
- (2) Where a tournament is suspended by the recognised governing body and no official result declared under circumstances where the balance of the tournament is intended to be rescheduled, all bets not yet determined are to be held in trust by the bookmaker until a result is declared by the relevant recognised governing body. In these circumstances, if a result is not declared within 7 days of the original scheduled commencement date, all selections not yet determined are deemed void.
- (3) (a) All outright bets are settled on the player who wins the trophy and any play-off holes will be taken into account when determining the winner of a tournament.
 - (b) In the case of place bets where there is a tie after completion of the predetermined number of holes (subject to rule 32(1) and 32(2) herein), the revised payout payable shall be calculated by the following method:
 - (i) divide the face value of the sports bet (the original payout and the original stake) by the number of competitors involved in the tie, draw or dead-heat, then
 - (ii) multiply the figure obtained in (i) by the number of official placings to be filled by the competitors involved in the tie, draw or dead-heat.

Example 1: Tiger Woods wins a tournament; Ernie Els comes 2nd and Adam Scott, Retief Goosen, Vijay Singh and Michael Campbell finish in a tie for 3rd place. If you have selected Scott to finish in the placings at 5/1 and you wagered 1000/200 the original payout of 1000 would be divided by 4 leaving the face value of the bet at 250/50. The official placings filled by the competitors who have tied is 2 (assuming you are paying the top 4 places), viz: 3rd and 4th place, so the bet would become 500/100. You win R500 and lose R100 on the bet.

Example 2: Woods wins a tournament, Els and Scott tie for 2nd, Goosen, Singh, Campbell and Garcia tie for 4th. Your wager is 2000/500 on Garcia to finish in the top 4. Your bet would be 500/125. You win R500 and lose R375 on the bet.

- (4) Selections shall become void on any player failing to tee off in the first round and subsequent withdrawals shall be deemed to be losers.
- (5) A player who tees off is deemed “under orders” and all outright and match bets stand.
- (6) The following applies to “make the cut” betting –
 - (a) For selection to stand the selected player must play 36 holes (or 54 holes where the cut is made at that point);

- (b) If a player is deemed to have made the cut if the player is eligible to play in the round after the cut has been made (even if he chooses not to). If a player is not eligible to do so (even if the rules for the cut have been changed during the tournament) that player is deemed to have missed the cut.
- (7) The following applies to 'miss the cut' betting:
If a player starts and withdraws before the cut is made then he is deemed to have missed the cut.
- (8) The following applies to tournament group betting –
- (a) this is the betting on specified groups of players to achieve the lowest individual aggregate (or the best placing) for the whole tournament irrespective of how far each player progresses;
 - (b) selections shall become void on any player in that group who fails to start the tournament and deduction rules shall apply on the remaining players in that group; and
 - (c) Dead heat rules applicable to horse racing shall apply if two or more players tie for 1st place in the group.
- (9) The following applies to tournament match betting –
- (a) This is betting on specified pairings to achieve the higher placing (or the lowest individual aggregate score) for the whole tournament, on a selected day or a number of selected days;
 - (b) prices are quoted for the tie in match betting (i.e. both players to achieve the same overall score after 72 holes, inclusive of when the number of holes has been reduced providing that it is not fewer than 36 holes and an official result has been declared by the recognised governing body);
 - (c) and if either player fails to take any part in the tournament, or if the specific round is abandoned, selections on that match shall become void;
 - (d) play-off holes do not count; unless the bet was made specifically to exclude the tie; i.e. one player to win outright against another in the tournament match betting scenario, and
 - (e) If one player misses the cut, the other is deemed the winner and where both players miss the cut, the player with the lowest score when the cut is made cut will be the winner.
- (10) The following applies to two, three and four balls matches: –
- (a) all bets are settled on the lowest single round score over the specified 18 holes play and all 18 holes must be completed;
 - (b) if a player starts a round but fails to complete it, all bets on that player will be deemed losers regardless of score;

- (c) all selections shall become void if the specified round is abandoned or if any one of the players fails to start the round;
- (d) dead-heat rules applicable to horse racing shall apply for three and four balls if more than one player achieves the lowest score, unless a tie is quoted;
- (e) a tie will be quoted for two-ball betting and where a tie occurs all bets on players are losers, unless it clearly states that betting is quoted with no tie;
- (f) in the event of a player listed in a three or four-ball withdrawing before the event has started all selections on that specific three or four ball are void;
- (g) if for any reason a player withdraws or is disqualified during the tournament after he has teed off (i.e. played one stroke), all bets will stand on that three or four ball; and
- (h) If 2 or 3 players are tied on the same score they will be settled as a dead heat for betting purposes, unless they are involved in a playoff, where the winner of the three or four ball is the golfer with the lowest finishing score. If all three or four golfers miss the cut the player with the lowest score will be deemed the winner.

31. Motor racing

The following shall apply to motor racing –

- (1) In the case of championship betting –
 - (a) bets stand on all drivers whether or not they participate, provided that drivers must start at least one race, and
 - (b) results will be determined based on the official points standings upon the initial declaration of the official result by the relevant recognised governing body of the final event for championship purposes. The championship result will not be affected by any subsequent protests, processes or amendments to placings.
- (2) In the case of Grand Prix betting -
 - (a) for settlement purposes the podium position or medal ceremony immediately after the race shall count as the official result. The result will not be affected by any subsequent protests, processes or amendments to placing;
 - (b) in the event that the number of laps in the race is reduced for any reason, bets will stand and the podium finish applied to determine the outcome of the event;
 - (c) Selections will be void on any driver who withdraws from the race prior to the commencement of the warm-up lap (also referred to as the formation or practice lap). Once the warm-up lap is underway, all contestants are “under starter’s orders” and all bets stand, and

- (d) In the case of “head-to-head” betting between two drivers or cars, if either or both fails to finish, the outcome will be determined in accordance with which car or driver completes the most laps, even if the number of laps is reduced for any reason. In the event that both are accredited with completing the same number of laps, dead heat rules apply.
- (3) Any selections on the constructors’ title will stand whether they participate or not provided that one of the constructors’ cars must start at least one race.

- (3) Where a bet is struck “to progress” or “lift the cup” or “to win outright” there shall be no betting on the draw, as extra time or penalties may be required to decide the outcome. In the event of both teams tied after extra time has been played, dead heat rules apply for betting purposes.
- (4) Prices shall be displayed on both teams as well as the draw if applicable, and it shall be clearly indicated which is the home team.
- (5) A handicap tie price if applicable will be quoted and if the game is a tie on handicap after 80 minutes, then all bets on both sides for the win will be deemed losers.
- (6) If a team plays a different opponent to that which is advertised, or if the venue of a match is the reverse of that displayed, all selections on that match shall become void.
- (7) Where various betting opportunities are offered for the same match (e.g. correct score, first player to score, half-time or full-time result forecast) these cannot be combined in multiple bets where the outcome is related or where the result of one part of the bet contributes or assists in determining the outcome of another part of the bet. Where an multiple bet of this type has been accepted in error, it shall be settled by equally dividing the stake unit where the related outcomes clash.
- (8) Where various betting opportunities are offered for the same tournament (e.g. a team to win a group, a team to progress or not to progress to further stages of the tournament, pick the finalists or semi-finalists) there cannot be combined in multiple bets where the outcome is related or where the result of part of the bet contributes or assists in determining the outcome of another part of the bet. Where an multiple bet of this type has been accepted in error, it shall be settled by equally dividing the stake unit where the related outcomes clash.
- (9) Should a match be incomplete, abandoned or postponed all selections shall become void, unless it is resumed or played within 24 hours of the original scheduled date.
- (10) In the case of “first try-scorer bets” –
 - (a) selections shall become void if the selected player does not take part in the starting line-up;
 - (b) if a match is abandoned “first player to score” bets shall stand provided a try has been scored;

- (c) in cases where a price is offered on a penalty try within the relevant market, all bets on players to score the first try will be losers;

 - (e) bets stand regardless of whether the player who is the subject of the bet or any other player takes or leaves the field or is dismissed from the game; and
 - (f) “any other try scorer” means any player besides those quoted (having betting next to their name) in the event. Only players NOT quoted in this event will be taken into account for the “any other player” bets.

Change Control Management Guide (Rule 32)

Upgrade Terminology

The terms patch, service pack, upgrade and hot fix are used interchangeably to mean changes to software after its release. The process for deploying is the same in each case. However, each term has the following more specific meaning:

Service Packs

Service packs keep the product current, correct known problems, and may also extend the functionality of a computer network. It includes tools, drivers, and updates, including enhancements developed after the product is released.

Service packs are product specific, therefore there must be separate service packs for each product. However, the same service pack may generally be used for different versions of the same product. Service packs are also cumulative. Each new service pack contains all of the fixes in previous service packs, as well as any new fixes and system modifications that have been recommended since. It should not be necessary to install a previous service pack before installing the latest one.

Hot fixes or Critical Modifications

Hot fixes or emergency modifications are provided to a group or individually when critical problems are experienced for which no feasible workaround is available. Hot fixes do not undergo extensive regression testing and is issue specific. Groups of hot fixes are periodically incorporated into service packs, at which time they undergo more rigorous testing and are made available.

Security Patches

Security patches are designed to eliminate security vulnerabilities. The software may be exposed to hostile manipulation via malicious code, malevolent operators or attackers wanting to break into computers who can exploit these vulnerabilities. These patches are analogous to hot fixes but are deemed mandatory, if the circumstances require, it must be deployed quickly. Many security patches are for client-side (often browser) issues. It may or may not be relevant to a server installation. It is also referred to as a Critical Patch Updates commonly known as a collection of patches for multiple security vulnerabilities. It may include a number of non-security fixes that are required (because of interdependencies) by those security patches.

Upgrade

Upgrade's extends the product's functionality and value. It keep's the product current with emerging trends, the needs of the IT environment, players or regulators.

Managing the Process

A good change control procedure has an identified owner, a path for player input, an audit trail to account for all changes, a clear announcement and review period, testing procedures, and a well understood rollback plan.

➤ Categorising Patches

As each new patch becomes available, the importance to the environment should be determined. Understanding its importance will help determine how soon one will need to deploy it and how much testing is required. The impact levels are shown in the following table.

Vulnerability Ratings

| | |
|-----------------|--|
| Critical | <p>These risks are devastating and include:</p> <ul style="list-style-type: none"> a) Loss of confidentiality, integrity and availability is likely to have a catastrophic adverse effect on the organization or individuals associated with the organisation (e.g., regulators, players); b) There is a total compromise of system & database integrity; c) There is a total shutdown of the affected resource; d) There is a complete loss of system protection that may result in catastrophic physical or property damage and loss; e) There may be a catastrophic loss of revenue or productivity; f) Significant web site defacement, denial-of-service, or full control is denied; g) Elevation of privilege, data disclosure, or modification that results in the above mentioned risks; and h) Arbitrary code is active without user action; remote escalation of privilege that results in the above mentioned risks. <p>Countermeasures recommended to mitigate these risks should be implemented immediately without prior approval of the Board. However, a request for the modification must be submitted to the Board in the prescribed form within 5 days.</p> |
| High | <p>These risks are significant and include:</p> <ul style="list-style-type: none"> a) Loss of confidentiality, integrity and availability is likely to have a serious adverse effect on the organization or individuals associated with the organisation (e.g., regulators, players); b) There is a compromise of system & database integrity; c) There is loss of system protection that may result in material physical or property damage or loss; d) Partial web site defacement, denial-of-service, or full control is compromised; and e) There may be a significant loss of revenue or productivity. There is reduced performance or interruptions in resource availability. <p>Countermeasures recommended to mitigate these risks should be implemented as a matter of urgency without the approval of the Board provided that a notification prior to applying the changes has been submitted to the Office of the Board. However, a request for the modification must be submitted to the Board in the prescribed form within 10 days.</p> |
| Moderate | <p>These risks are less significant. Risks include but are not limited to:</p> <ul style="list-style-type: none"> a) Loss of confidentiality, integrity and availability is likely to have an adverse effect on the organization or individuals associated with the organisation (e.g., regulators, players); b) Compliance to provincial legislation is severely compromised; c) Difficult to exploit, unusual configuration, or transient effect Audit data disclosure, modification; d) A moderate loss of revenue or productivity to the organization; and e) There is unconfirmed source or possibly multiple conflicting reports. There is little confidence in the validity of the reports. <p>Countermeasures recommended to mitigate these risks should be implemented upon prior approval of the Board in the prescribed form.</p> |
| Low | <p>These risks are low. Risks include but are not limited to:</p> <ul style="list-style-type: none"> a) Loss of confidentiality, integrity and availability is likely to have only a limited adverse effect on the organisation or individuals associated with the organization; b) Limited impact such as disclosure of scripts. Untargeted or fragmentary data theft or modification, limited denial-of-service; c) Compliance to provincial legislation less significant; and d) There is no potential for loss or damage to physical assets, productivity, revenue or taxes. <p>Countermeasures recommended to mitigate these risks should be implemented during routine maintenance upgrades upon prior approval of the Board in the prescribed form.</p> |

The rating system categorises vulnerabilities, according to their potential impact if the vulnerability is exploited and the likelihood of that happening. Patches must be categorised based on an individual environment.

Reviewing of Patches

Software changes and any patches which are going to be installed in an environment must be thoroughly tested. How much testing is appropriate will depend on how it has been categorised.

At a minimum, each change control procedure must consist of the following steps:

- a) **Identifying the patch owner** - For all patches, it should have an identified owner who is responsible for the evaluation of the patch;
- b) **Reviewing all documentation** - Before applying any service pack, hot fix, or security patch, all relevant documentation should be read and peer reviewed. The peer review process is critical as it mitigates the risk of a single person missing critical and relevant points when evaluating the update;
- c) **Verifying the patch category** - After further assessment of the patch, it may need to change its category;
- d) **Server Operations** - After the patch is installed correctly, ensure that the server continues to work properly. Review the Event Log and System Monitor for any unexpected results. Test all of the server functions and verify that everything operates as it should;
- e) **Application Operations** - As part of the testing procedure, test the patch with any applications that coexist on the servers and make sure to identify any issues with dependencies. After installing the patch, verify that all applications continue to work as before;
- f) **Uninstall** - It is possible that despite the testing, after installing the patch it will run into problems, which will require an uninstall action. It is important, therefore, to test that the uninstall works. After uninstalling, verify that the server continues to run as expected and continue to watch the Event Log and System Monitor counters; and
- g) **Creating a Rollback Plan** - Even if testing proceeds entirely without incident, it is still possible that a problem may occur in deploying the patch throughout. Provision must be made for a plan of action to restore the computer to its original state before the patch was deployed.
